

Pennsylvania QSO Party 2016 Official Rules

1. Purpose of the party

1.a. Pennsylvania Amateurs try to contact as many other amateurs in Pennsylvania, the United States, Canada and the world. Pennsylvania Amateurs receive multipliers for each Pennsylvania county, US and Canadian section, and one multiplier for DX entities.

1.b. Non-Pennsylvania Amateurs try to contact as many Pennsylvania Amateurs as possible. Non-Pennsylvania Amateurs receive a multiplier for each Pennsylvania County with a QSO.

1.c. A Pennsylvania Amateur is defined as an Amateur operating in the State of Pennsylvania, without regard to the Amateur's home address. Other Operators are considered Out-of-state.

2. Party Dates

2.a The Pennsylvania QSO Party is always held the second full weekend in October.

2. Operating Periods

2.a. 1600Z October 8 to 0500Z October 9, and 1300Z October 9 to 2200Z October 9, 2016.

3. Bands for the QSO Party

3.a. 160 meters, 80 meters, 75 meters, 40 meters, 20 meters, 15 meters, 10 meters, 6 meters, 2 meters, Above 2 meters, QSOs are permitted, but those frequencies are not much in use for the party at this time. Interested Operators are encouraged to set up skeds if desired.

4. Suggested Frequencies

4.a. SSB: 1.850, 3.825, 7.200, 14.280, 21.380, 28.480, 50.125, 146.55.

4.b. Note that 12, 17, 30, 60 meter and repeater QSOs are not permitted.

4.c. CW: 40 KHz up from the bottom and 1810KHz

1600 Zulu 1300

4.d. PSK: 3.580, 7.080, 14.07015, 21.080, 50.250 RTTY: 3.580, 7.080, 14.080, 21.080, 28.080

4.e. 160 meters Try at 0300Z Sunday Follow 160 meter band plan

5. Hi Band Activity periods

5.a. Sat and Sun: 10M – 1800Z 15M – 1900Z 20M – 2000Z SSB on the hour, CW on the half hour.

6. Mobile Window

6.a. 5 KHz below listed suggested frequencies. Keep this area clear for weak mobiles.

7. Exchange

7.a. Sequential serial number plus county or ARRL or Canadian section (see **26. Canadian Sections** for details)

7.b. Stations on county line give out 1 serial number per contact plus multiple county multipliers.

7.c. Work stations once per band and mode. Work Rovers and mobiles again as they change counties.

8. Scoring QSO points:

8.a. CW 2 points/QSO

8.b. PSK 2 points/QSO

8.c. RTTY 2 points/QSO

8.d. SSB or FM 1 point/QSO

8.f. Special Event or Bonus Station QSO-200 points bonus per QSO per band and mode

8.g. The Bonus Station for the 2016 PAQSO Party is W3UU by the Harrisburg Radio Amateurs' Club.

9. Entry Divisions

- 9.a. Single operator Medium power – 6 to 150 Watts
- 9.b. Single Operator QRO – 151 Watts to Legal band limit
- 9.c. QRP Operator - 5 Watts or less
- 9.d. Single Operator CW only - 150 Watts or less
- 9.e. Multi-Single - Only one signal on air at a time
- 9.f. Multi-Multi -
- 9.g. Portable Single Operator
- 9.h. Portable Multi-Operator
- 9.i. Mobile - Single
- 9.j. Mobile - Multi
- 9.k. Rover - Single
- 9.l. Rover – Multi
- 9.m. Remote station

9.m.1. Entry classes may be mixed, as in QRP Portable or Mobile. Obviously a station cannot be multi-op and single op concurrently mixing must make sense.

9.m.2. There is no assisted or unassisted class, so spotting is allowed.

9.m.3. County line stations may be any logical entry class such as home portable, QRP, and the like. Mobile entries cannot be county line stations

9.m.4. A remote station is considered to be in the county or Section it's antenna radiates RF from.

9.m.5. Remote stations may only be one county or section. Otherwise, power levels and modes are the same.

10. Station Definitions

10.a. A Home station is a station that is operated from a fixed position. It does not need to be a domicile. Club stations are considered home stations.

10.b. A Portable station is a station that is set up for the purpose of operating in the party, with the intention of teardown in the post party period. Typical of a portable station would be operations from a camp cabin, Recreational Vehicle, or tent. Antennas are not restricted, but are typically more home station in construction. Portable stations are not restricted in their power source. Battery, generator, or mains power is perfectly acceptable.

10.c. A Mobile station is a station that is capable of operation while moving. Moving is defined as travel in a legal manner on Pennsylvania Highways. The antenna must be of a type generally accepted as a mobile antenna. Mobile stations are not required to be in motion while operating. For the purposes of the party, to be counted as a mobile, you must be operating within the Commonwealth of Pennsylvania. Note that this does not exclude mobile operation outside of Pennsylvania. It means that outside of the commonwealth, there are no mobile bonuses available, so no need for the designation. A mobile - single station is one single operator, a Mobile Multi-Op Station is an Operator plus a driver, who is either only driving or another Operator.

10.d. A Rover station is a station that is capable of moving from one place to another, but is typically using an antenna that is set up on site, then torn down and moved to another site. Rovers do not operate as a mobile en route between stations.

10.e. QRP operations are those operations at a power of 5 watts or less. They may be undertaken on any station setup capable of operation at 5 watts or less. If a QRP multiplier is to be claimed, the entire party must have been run at QRP level. There is no restriction on antennas for a QRP operator.

11. Multipliers and Scoring for Pennsylvania Stations

11.a. ARRL Sections + Canadian Sections + PA Counties + 1 DX. (See **26. Canadian Sections** for details)

11.b. Multipliers for Stations operating outside of Pennsylvania are the 67 Pennsylvania Counties.

11.c. Final Score = Total points times Total Multipliers.

11.d. QRP Operation Bonus Multiplier = Total Points times 2.

12. PA Mobile operation Bonus points

12.a. Add 500 Points to final score for each county you operated from where you made at least 10 QSOs.

13. PA Rover operation Bonus points

13.a. Add 500 Points to final score for each location you operated from where you made at least 10 QSOs.

14. Additional Mobile and Rover rules

14.a. A Mobile station must be truly mobile, using an antenna accepted as a mobile antenna, and capable of moving between counties without any setup/teardown. Note that adjusting taps on a "Bugcatcher" antenna is not considered to be setup or teardown. A mobile station may operate either stationary or while in motion. Stationary operations are encouraged for safety considerations.

14.b. Mobile stations identify by the addition of /M or /(county) to their call signs for CW, RTTY, and PSK and spoken Mobile on SSB or FM.

14.c. Mobile stations must submit a summary for each county operated from, and an aggregate summary for the party.

14.d. Instructions for log and summary submission for Rovers are on the PAQSO Party website at: <http://nittany-arc.net/paqsomobiles.html>

14.e. Rover stations identify by the addition of /R or /(county) to their call signs for CW, RTTY, and PSK and spoken Rover on SSB or FM.

14.f. Rover stations must travel 5 miles or more between stops to be eligible for the 500 point bonus.

14.g. Rover stations must submit a summary for each county operated from, and an aggregate summary for the party.

14.h. With the number of entrants running as mobile, and the large number of counties they cover, submissions may become rather large in size. The Party provides a Dropbox account for large submissions. Contact Mike at mcoslo@comcast.net for instructions on submitting logs and summary sheets in this manner.

15. County Line Stations

15.a. County line stations may be either Home Stations or Portable stations.

15.b. Mobile or Rover stations are *not* eligible to be a County line station.

15.b.1. Note: if a station that is essentially a mobile station ie, a transceiver in a vehicle with a mobile antenna wished to run county line, they could do so, but at the expense of being mobile. That would be their position for the entire party, and they would enter as a county line station, and not as a mobile, but as a portable.

15.c. A County Line Station is scored the same as other stations, they do not collect multiple QSO Points based on county line operation. To wit, if a county line station operates in a two county operation, and makes 100 contacts, they get 100 QSO Points, not 200

15.d. A County line station's position is defined as follows:

15.d.1. The station must be situated very near the boundaries of at least two or more adjacent counties.

15.d.2. Ideally the antenna should cross the boundary, but safety and practicality do not always allow that.

15.d.3. Many boundaries are in the middle of rivers or highways. The key element is that the station must be set up as near as practical to the adjacent borders.

15.e. Party officials are available to determine admissibility of any county line station setup.

16. Bonus Stations

16.a. The PAQSO party will at it's discretion have a special bonus station during the party.

16.b. The Bonus Station may consist of a single station, multiple stations in different counties, or other novel operations as approved by the party administrators.

16.c. QSOs with the bonus station are worth 200 points, and any multiplier that has not been claimed yet. The Bonus Station for the 2016 PAQSO Party is W3UU operated by the Harrisburg Radio Amateurs' Club.

16.d. If a group or club wishes to be considered for a particular year's Bonus station, they should contact the Party Chairman to indicate their interest, and then to prepare an Operation Plan for the proposed Bonus Station.

16.f. There are often several groups applying for the bonus station every year. By the very nature of a bonus station, we can select only one. There have been times in the past, when people or groups, not selected, have become so upset that they have boycotted the party because of it. Please do not do that. The decision is almost always very difficult, there is no reason to make it more so. If *not* being chosen as the bonus station will cause you to become so angry with the administrators of the party that you refuse to participate, reconsider the application.

17. Entry Materials

17.a. Entry materials consist of a log and dupe sheets and an official summary sheet or reasonable facsimile.

17.a.1. Dupe sheets are only needed for paper logging, not for computer logs.

17.b. All entry materials can be downloaded from the website. <http://nittany-arc.net/paqsoforms.html>

17.c. Entry materials must be received by November 15th following the party, in one of three ways.

17.c.1. Electronic Logs and summary sheet may be submitted via email to paqsolog@nittany-arc.net

17.c.2. Paper copies of all materials may be sent via US Mail or other delivery service.

17.c.3. Electronic logs on CD may also be sent vial US Mail or other delivery service.

17.d. Whatever method of submitting a log, an official Summary sheet or reasonable facsimile must be filled out

for the party. An official summary that can be filled out on-line which will calculate the score from your input, and is available at <http://www.nittany-arc.net/entryforms.htm>. Other acceptable methods are the summary sheets from various logging programs. Ensure that your program provides all the needed information.

17.e. Logs submitted without a summary sheet will be held, and the sender be notified of the need for a summary sheet.

17.e. Electronic log format is Cabrillo 3.

18. Party Communications

18.a. Do NOT send email communications to the paqsolog address. That address is set up exclusively for logs. non-log email submissions will not get to us. Use the regular email addresses for the party chair.

19. Donations

19.a. We are a small club running a big QSO party, and now that we no longer sell promotional items, donations are of greater importance than ever. In an effort to keep the PASO Party in existence, donations are always welcome, and keep us healthy and happy. Donations may be sent to our mailing address, or on the website at:
<http://nittany-arc.net/PAQSOSTore.html> and using PayPal or your major credit card.

23. Club Competition Award

23.a. A Trophy is awarded to top club competition Station

23.b. Certificates awarded for 2nd through 5th place in the Club competition

23.c. The winner is determined by summation of the scores of club members. The current status of club members is determined by a list that is provided by a club officer, preferably the club president. The PAQSO chair will ask for the list after the party and the top club scores become apparent.

24. County and Section Certificates

24.a. Certificates will be mailed to county and section winners.

24.b. To qualify for a certificate, the Operator must compile more points than other operators from that section or county.

24.c. In some cases, a mobile operator may be the leading scorer from several counties. In that event, the mobile Op will receive the corresponding certificates.

24.d. The PAQSO party administration will mail the certificates to the respective winners.

25. Special Certificates or plaques

25.a. The PAQSO Party may at times offer special certificates or plaques for various achievements in the party.

26. Canadian Sections

26.a. The RAC has added new sections splitting ON or VE3 into 4 sections. Unfortunately there is no standard Canadian section list in use across contests or QSO parties. So we have chosen the section listing in use by ARRL for some of their contests.

26.b. The Canadian sections in use by the PAQSO party are:

- 26.b.1.** MAR *Maritime - Nova Scotia and Prince Edward Island VE1 and VY2*
